

Native Grasses of California

John Greenlee

California Native Plant Symposium

February 12, 2011

Apply to lawn areas
usually fertilized by
municipal agencies
to establish and
maintain the lawn.
Use only those which
contain nitrogen and
phosphorus.

WEED AND FEED

Do These Problems Look Familiar?

SOLUTION:
Apply Weed & Feed

PROBLEM
Broadcast spreaders are
actively growing.

SOLUTION
Apply a fertilizer and weed
control to control broadcast
weeds while fertilizing
your lawn.

- Apply when the
lawn is wet
- Do not water-in

Please see your Home Depot
Associate for specific lawn products
for your type of grass.
